

1. PROJECT PLANNING & SETUP

- 1.1 Define project scope & requirements ✓
- 1.2 Create folder structure ✓
- 1.3 Design database schema
- 1.4 Prepare documentation (WBS, GANTT, RBS)

2. INFRASTRUCTURE & CONFIGURATION

- 2.1 Database connection (config/db.php)
- 2.2 Session management (config/session.php)
- 2.3 Error handling & logging
- 2.4 Constants & configuration (config/config.php)

3. DATABASE LAYER

- 3.1 Create SQL schema (games, users, matches tables)
- 3.2 Create sample/mock data
- 3.3 Database models (PDO abstraction)
 - 3.3.1 User model
 - 3.3.2 Game model
 - 3.3.3 UserGame model (many-to-many)
 - 3.3.4 Match model
 - 3.3.5 Preference model

4. AUTHENTICATION SYSTEM

- 4.1 User registration logic
- 4.2 User login logic
- 4.3 Password hashing & verification
- 4.4 Session handling
- 4.5 Logout functionality
- 4.6 Auth API endpoints
 - 4.6.1 api/auth/register.php
 - 4.6.2 api/auth/login.php
 - 4.6.3 api/auth/logout.php

5. USER PROFILE SYSTEM

- 5.1 User profile model & CRUD
- 5.2 Profile view page (views/profile.php)
- 5.3 Profile edit form
- 5.4 Profile API endpoints
 - 5.4.1 api/users/get.php
 - 5.4.2 api/users/update.php
 - 5.4.3 api/users/search.php

6. GAME LIBRARY SYSTEM

- 6.1 Game database management
- 6.2 Add game to library
- 6.3 Remove game from library
- 6.4 Display user's game library
- 6.5 Game library API endpoints
 - 6.5.1 api/games/add.php
 - 6.5.2 api/games/remove.php
 - 6.5.3 api/games/library.php

- 6.5.4 api/games/search.php

7. MATCHMAKING SYSTEM

- 7.1 Matchmaking algorithm (shared games + preferences)
- 7.2 Compatibility score calculation
- 7.3 Suggestion display
- 7.4 Filter & sort suggestions
- 7.5 Matchmaking API endpoints
 - 7.5.1 api/matchmaking/suggestions.php
 - 7.5.2 api/matchmaking/filter.php

8. SOCIAL INTERACTIONS

- 8.1 Like/Follow system
- 8.2 User interaction tracking
- 8.3 Social API endpoints
 - 8.3.1 api/social/like.php
 - 8.3.2 api/social/follow.php
 - 8.3.3 api/social/followers.php

9. MATCHES & TOURNAMENTS

- 9.1 Match creation system
- 9.2 Match participation logic
- 9.3 Tournament structure
- 9.4 Match status management
- 9.5 Match API endpoints
 - 9.5.1 api/matches/create.php
 - 9.5.2 api/matches/join.php
 - 9.5.3 api/matches/list.php
 - 9.5.4 api/matches/details.php

10. FRONTEND PAGES

- 10.1 Layout template (header, sidebar, footer)
- 10.2 Home page (feed/suggestions)
- 10.3 Login/Register page
- 10.4 Profile page (views/profile.php)
- 10.5 Game library page (views/games.php)
- 10.6 Matchmaking page (views/matchmaking.php)
- 10.7 Matches/Tournaments page (views/matches.php)
- 10.8 User search/browse page

11. JAVASCRIPT FUNCTIONALITY

- 11.1 Fetch utilities & error handling (assets/js/api.js)
- 11.2 Profile page interactions (assets/js/profile.js)
- 11.3 Game library management (assets/js/games.js)
- 11.4 Matchmaking interface (assets/js/matchmaking.js)
- 11.5 Match creation/joining (assets/js/matches.js)
- 11.6 Real-time DOM updates

12. STYLING & ANIMATIONS

- 12.1 Bootstrap integration
- 12.2 Base CSS styling (assets/css/style.css)

- 12.3 AOS (Animate On Scroll) integration
- 12.4 Responsive design
- 12.5 Dark/Light mode (optional)

13. TESTING & VALIDATION

- 13.1 Manual testing of all CRUD operations
- 13.2 Form validation (client & server)
- 13.3 Error handling verification
- 13.4 Security review

14. DOCUMENTATION & DEPLOYMENT

- 14.1 Code comments & documentation
- 14.2 README.md
- 14.3 Deployment instructions
- 14.4 Final review

****Total Tasks: 60+ subtasks****
